**TO WHOM IT MAY CONCERN:**

It is with great pleasure that I hereby affirm that I have worked with Nadia Mason Personnel in a professional capacity since 2002.

The business relationship between Nadia Mason Personnel and myself has been a tremendous success. The company showed a great interest in our business and really took time to get to know and understand.

I have requested assistance on numerous occasions with the placement of staff at various levels. Each and every time they rose to the challenge and delivered with high calibre, competent individuals.

I have absolutely no hesitation in recommending Nadia Mason Personnel as a recruitment agency with the highest level on integrity and competence, especially in the recruitment of top quality people from designated groups.

Yours sincerely
