To Whom It May Concern:

RE: Customer Reference - Nadia Mason Personnel.

Nadia Mason Personnel has been one of our top recruitment service providers. Accordingly, I have no hesitation in recommending them as a company with which to do business.

In addition to doing business with his company for the past 6 months, I have worked with the president and founder of Nadia Mason Personnel, Nadia Mason, for over 6 years. While I was employed at M-Web from 1998 to 2003, she also provided a temporary and permanent recruitment service then. Knowing her for so long I am quite comfortable in vouching for her as a great professional and a deadline driven individual.

As far as a company to do business with, Nadia Mason Personnel is one of the best that we have dealt with. Its practice has always been to supply us with high caliber employees within a dedicated time limit. We did significant amounts of business and I cannot recall an unproductive or under performing candidate that was recommended by the company. They have also accumulated BP corporate knowledge, which has given them an understanding of the requirements in sufficient detail to identify how they will be able to meet our demands;

Nadia Mason Personnel and Nadia Mason Consulting was one of the best companies that I have ever dealt with from a recruitment and selection perspective. We maintained close communication with the company's team and they always kept us informed of their candidate data base and potential candidates. Thus, contacting them with staff issues was never a problem.

Based on our experience, any corporate company should be very pleased to be the one that Nadia Mason Personnel or Nadia Mason Consulting selects to do business with.

Sincerely,
